SUMMARY

I am an undergraduate student at the University of Vavuniya with a passion for backend development. I enjoy building systems using technologies like Java Spring Boot and PHP Laravel. I am always eager to learn new skills, solve problems, and improve my coding abilities. I work well under pressure and stay focused on delivering quality results.

TECHNICAL SKILLS

Languages: php, html, css, javascript, c++, Java, SQL
Frameworks: Laravel, Springboot, Bootstrap
Designing Tools: Adobe XD, Figma
Developer Tools: Git, Postman

PROJECTS

Hostel Management System | *php, html, css, javascript, laravel, SQL*   link
- Developed a PHP Laravel application with CRUD operations for managing data efficiently.
- Designed the frontend using HTML, CSS, and JavaScript for a responsive user experience.
- Utilized SQL database for structured data storage and optimized queries for better performance.

Airline Reservation System | *php, html, css, javascript, laravel, SQL*   link
- Built an Airline Reservation System using PHP Laravel with CRUD operations.
- Designed a responsive UI using HTML, CSS, and JavaScript.
- Used SQL database to manage flights, bookings, and user data.

Library Management System | *java, html, css, javascript, AJAX, Springboot*   link
- Developed a Library Management System using Java Spring Boot with CRUD operations.
- Designed a user-friendly UI using HTML, CSS, and JavaScript.
- Integrated AJAX for seamless real-time interactions and data updates.
- Used Spring Boot for backend logic and efficient database management.

Mini Banking System | *java, Springboot*   link
- Developed a Mini Banking System using Java Spring Boot with CRUD operations.
- Implemented features like account creation, deposits, withdrawals, and transactions.
- Send email notification after every operaton.

EDUCATION

BICT(Hons)
Univercity of Vavniya
Department of ICT
Faculty of Technological Studies
